B

Adverting to Government Order No. Fl. 411-60/S. & A. 7-22-1, dated 18th July 1922, passing orders on the recommendations of the Special Finance Committee, I have the honour to state that the Government were pleased to order that the allowances granted to the officers of the Mining Department would not be reduced in view of the specially arduous nature of the duties entrusted to them.

In spite of this assurance, the Government have since approved of the recommendations of the Finance and Taxation Committee to abolish the Duty Allowance granted to these officers, with the proviso however that the present incumbents be permitted to draw these allowances.

It is a well-known fact that all work underground is most arduous and hazardous and this is increased by the rockbursts and quakes peculiar to the Kolar Gold Field. The conditions of work underground at the present day are quite different to those obtaining 15 to 20 years ago. The specially arduous nature of the duties devolving upon the Inspectors of Mines has been recognised by Government in the past and the successful performance of such duties at the present day is becoming increasingly difficult owing to the higher rock temperatures encountered at the great depths to which the mines have reached, necessitating much hard work under extremely trying conditions. Moreover the scale of pay fixed for the Inspectors of Mines compares unfavourably with that obtained by similar

G.O. No. Fl. 3537-86/
S.A. 67-24-1 dated
23rd December 1924

similar officers under the Government of India.

It is in consideration of these and other facts that all the Inspectors of Mines were given allowances in addition to pay.

I therefore strongly recommend to Government that these officers while acting in higher appointments should, as a special case, be permitted to draw the Duty Allowance attached to such appointments. If for some unknown reason this is not possible, I request that they should at least be permitted to draw the Duty Allowance attached to their permanent posts in addition to the acting allowances admissible to them under the Service Regulations.

The present Inspector and Assistant Inspector of Mines have been drawing these allowances from the very commencement of their service in the Mines Department, i.e. for about 19 years, and it will indeed be a great hardship to them if the same is now withdrawn. From every aspect, it seems unreasonable considering the greater responsibility and extra duties these officers have to undertake and satisfactorily discharge in the immediate future.

These proposals are accordingly submitted to Government with confidence and in the hope that a sympathetic and favourable view will be taken of them and early orders passed sanctioning the continuance of these allowances.

I have the honour to be,
Sir,
most obedient servant,

R. Bocquet.
DEPUTY INSPECTOR OF MINES
IN MYSORE.
